Dear referee,

First of all we would like to thank you for your time and effort to comment on our manuscript: “Evaluation of a bias correction method applied to downscaled precipitation and temperature reanalysis data for the Rhine basin” by W. Terink et al. The supplement contains the response letter in which we respond to the comments of all handling referees. The comments of all referees are included in this letter as well, and our response to each comment can be found in “italic” font below the comment.
Please also note the supplement to this comment:
