- In equation 9 (line 2 of page 11182), the water retention index k is missing. This is the corrected equation:

\[ T_F d = (g_F d \cdot k) \cdot \frac{S_F d}{S_B} \]

- The unit of gF is not corrected (line 3 of page 11182). This is the corrected text:

"where \( g_{F_d} = 4.0 \text{ day.m}^{-1} \) is a property of the floodplain reservoir ..."
